

COMPANY PROFILE

Alpha Engineering &
Contracting Co. LLC

"Building Oman's Future, One Project at a Time"

Embracing Excellence in Engineering and Contracting

Over the years, our commitment to delivering high-quality projects has remained unwavering. With a team of seasoned professionals, state-of-the-art infrastructure, and a passion for excellence, we continue to redefine industry standards and push the boundaries of what's possible.

Our diverse range of services, encompassing the production of crusher material, asphalt, concrete, and precast solutions, allows us to meet the dynamic needs of our esteemed clients. Additionally, our road marking and guard rail installations contribute to the safety and efficiency of Oman's vital transportation networks.

We are proud of the trust our clients and partners have bestowed upon us, and we look forward to continuing our journey of collaboration, innovation, and sustainable growth. Rest assured, our dedication to Health, Safety, and Environment (HSE) practices remains an integral part of our operations, ensuring a secure working environment for all stakeholders.

As we look ahead, we are poised for expansion into new avenues of construction, both in building and infrastructure projects, as well as MEP activities. With these developments, we aim to reinforce our position as a leader in the Omani engineering and contracting landscape.

Thank you for being an essential part of our journey thus far. Your continued support fuels our drive to reach greater heights.

About us

Established in 2014, Alpha Engg. & Cont. Co. LLC has emerged as a pioneer in the field of engineering and contracting in Oman. With a steadfast commitment to excellence and a vision for the future, we have swiftly become a trusted name in the industry.

Our Journey

Since our inception, we have grown from strength to strength, expanding our operations to several strategic sites across Oman. Our main headquarters, centrally located in the vibrant city of Muscat, serves as the epicenter of our operations and embodies our dedication to quality and innovation.

Pioneering Excellence

At Alpha, we pride ourselves on delivering projects that set new industry benchmarks. Our dynamic team of experts, coupled with cutting-edge infrastructure, enables us to consistently exceed client expectations. From the production of critical construction materials to the execution of precise engineering solutions, we are dedicated to raising the bar in every endeavor.

A Comprehensive Range of Services

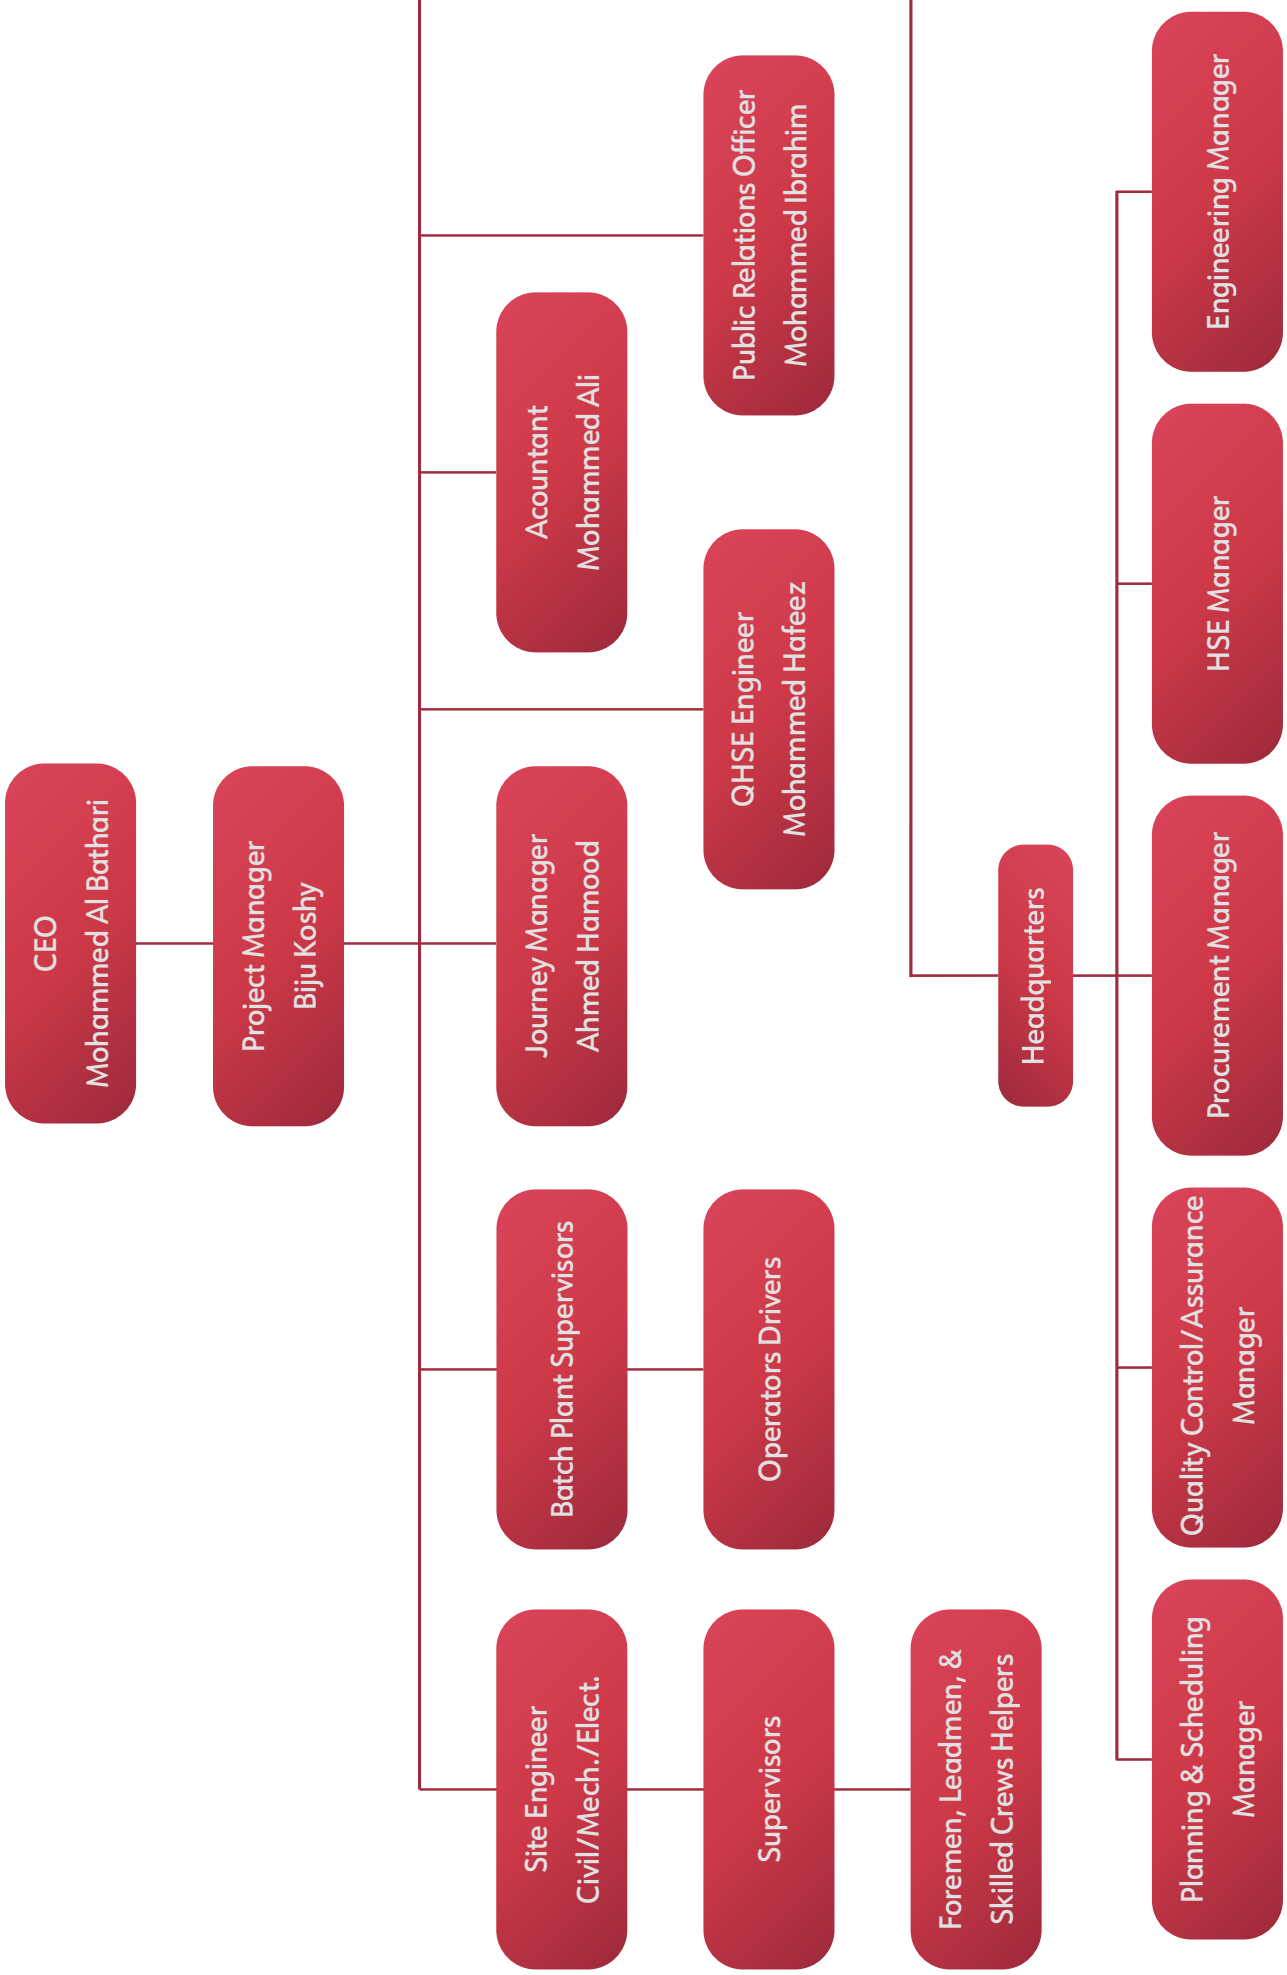

We specialize in a diverse range of services, including the production of crusher material, asphalt, concrete, and precast solutions. Additionally, our proficiency in road marking and guard rail installations bolsters the safety and efficiency of Oman's vital transportation networks.

Forward Momentum

Looking ahead, we are poised for further expansion, driven by a vision of contributing to Oman's infrastructural growth and development. With an emphasis on both building and infrastructure projects, as well as MEP activities, we are well-positioned to continue our legacy of excellence.

Safety, Integrity, and Environmental Stewardship

We prioritize the well-being of our employees and partners, adhering to rigorous Health, Safety, and Environment (HSE) practices. Our operations are underpinned by a commitment to integrity, ensuring that every project is executed with the utmost professionalism and transparency.

At Alpha Engg. & Cont. Co. LLC, our expertise lies in a comprehensive suite of services tailored to meet the diverse needs of our clients. While we excel in a range of specialized offerings, our primary focus and extensive experience lie in the following key areas:

Concrete Batching Plant & Ready Mix Operations

Our state-of-the-art concrete batching plant, equipped with cutting-edge technology, stands as a testament to our proficiency in producing high-quality concrete solutions. With a capacity for precision batching and a team of skilled operators, we deliver on time, every time.

Civil Infrastructure Works

We take pride in our extensive portfolio of civil infrastructure projects. From intricate foundations to expansive road networks, our team of seasoned professionals brings precision and expertise to every aspect of civil construction.

Crushing Material Production

Alpha Engg. & Cont. Co. LLC is a leading supplier of quality crushing materials. Our crushing unit, strategically located, ensures a steady supply of aggregates and crushed sand, adhering to the highest industry standards.

Asphalt Production

With a commitment to quality and durability, our asphalt production unit delivers a wide range of asphalt solutions for various applications. From road surfaces to specialized projects, we provide products that stand the test of time.

RCC Precast of Sleepers & Pipeline Support

Our expertise extends to the fabrication of precast concrete sleepers and foundations, offering durable and customized solutions for diverse construction needs.

Road Marking Operations

Precision and safety are at the forefront of our road marking operations. We deploy the latest techniques and materials to ensure clear, durable, and highly visible road markings.

Guard Rail Installations

Enhancing road safety, our skilled team specializes in the installation of guard rails, providing critical protection for road users.

These core services represent the cornerstone of our operations, and our track record speaks to the expertise and dedication we bring to each project.

Capabilities and Locations

At Alpha Engg. & Cont. Co. LLC, our strength lies in our diverse team of over 50 dedicated professionals, strategically positioned across key operational sites in Marmul, Nimr, and our main headquarters in Muscat. This strategic distribution ensures efficient coordination and seamless project management.

Marmul Site

Home to a high-capacity batching plant capable of producing 125 cubic meters of concrete per hour, Marmul is a vital hub for our operations. It's equipped with an array of specialized vehicles and machinery, including transit mixers, prime movers, trailers, pay loaders, forklifts, and more.

Nimr Site

Nimr boasts a batching plant with a capacity of 65 cubic meters per hour. Here, we deploy a range of essential equipment, including transit mixers, pay loaders, forklifts, and other specialized machinery, to ensure efficient concrete production.

Muscat - Headquarters

Our Muscat headquarters is the nerve center of our operations, housing management offices and serving as the strategic decision-making hub. It is where our administrative functions, including the Board of Directors, are based. While this location doesn't host equipment or machinery like our operational sites, it plays a pivotal role in ensuring seamless coordination and efficient project management.

Laboratories and Quality Assurance

Our commitment to quality is exemplified by our well-equipped laboratories. Here, we conduct rigorous testing of materials and finished products using state-of-the-art equipment calibrated to international standards. This ensures that every aspect of our operations meets the highest industry benchmarks.

Sustainability

At Alpha, sustainability is ingrained in our DNA. We approach every project with a commitment to environmental responsibility, prioritizing eco-conscious practices and adhering to strict regulatory standards. Our dedication to innovation drives us to pioneer sustainable technologies, from energy-efficient equipment to green building materials.

Community-Centered Approach

Engagement with local communities is fundamental to our sustainability ethos. We forge collaborative relationships, understanding their unique needs, and working together towards shared goals. Through community partnerships and initiatives, we aim to leave a positive, enduring impact on the regions we serve.

Safety, Well-being, and Efficiency

The safety and well-being of our employees are paramount. We maintain stringent safety protocols, ensuring a secure working environment. Additionally, we optimize resource use and integrate renewable energy solutions to enhance project efficiency, reduce waste, and contribute to a more sustainable energy landscape.

Transparency and Accountability:

We uphold transparency and accountability in our sustainability efforts. Rigorous tracking and reporting of key metrics allow us to assess our progress and identify areas for improvement. We hold ourselves to the highest standards of performance, aspiring to set new benchmarks for sustainability in the industry.

Quality Policy

ALPHA ENGG. & CONT. CO. L.L.C aims for the highest standard of building and services within OMAN construction industries and intend to retain their position as a leading contracting organization by continuing to provide client satisfaction and to generate further business opportunity through operating in safe, efficient and providing Value Engineering.

To achieve customer satisfaction and improve our business through quality, we are committed to:

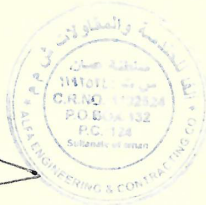

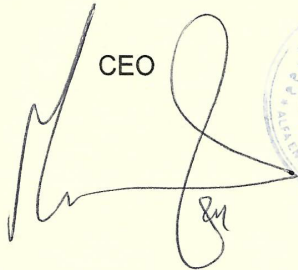

- ! Knowing Customer's expectations and needs, continually providing high quality service that meet or exceed the requirements of our customer.
- ! Solving customer complaints immediately, preventing problems from recurring and earning customer trust.
- ! Providing safe and environment friendly work place.
- ! Providing resources including training of employees, appropriate infrastructure and work
- ! solving customer complaints immediately, preventing problems from recurring and earning customer trust.
- ! The establishment of regular review of business objective through effective internal audit and management process.

All employees understand the requirements of this Quality Policy, and are committed to delivering to customer a quality product by abiding the Quality Plan and processes by actively encouraged to participate in identifying process improvement.

HEALTH SAFETY & ENVIRONMENTAL POLICY

It is the policy of Alpha Engineering & Contracting CO LLC to protect the Health & Safety of their employees, Sub-contractors staff and other persons who are involved in their activities.

AEC will facilitate proper training to improve HSE skills and competence of all employees.

AEC empowers all employees to stop all unhealthy, unsafe or environmentally damaging work.

AEC is committed to reduce the risk and hazards to health, safety and the environment to all levels which are low as reasonable practicable.

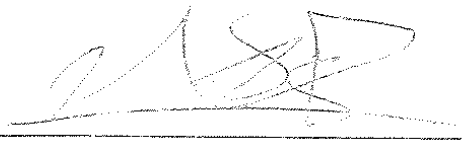

AEC will ensure projects are carried out using the latest Plant Equipments and methods which represents the safest and most efficient type of execution

It is the policy of Alpha Engineering & Contracting CO LLC that in the conduct of its activities

- It will act positively to protect the health & safety of its employees, Sub-contractor's Employees and any other who may be affected by these activities.
- It will take necessary precautions to prevent adverse effects on the environment in which its Activities are carried out.
- It will comply with the Laws and Statutes of Sultanate of Oman, as applicable to its activities.

AEC firmly believes that no part of its business objectives can be carried out effectively and successfully if not performed safely.

It believes that all accidents are preventable and that managing Health, Safety and Environmental protection is a responsibility of the line management. To this end, it is an essential duty of all Managers and Supervisors to promote Health and Safety of all personnel and to ensure the efficient integration of this policy into all activities of AEC. All personnel are expected to recognize that they have a clear duty to exercise self discipline and accept responsibility to participate in prevention of injury and loss to themselves, others and the environment in every way they can.

Mohammad Said Al Bathari
Director, Alpha Engineering & Cont Co LLC.

ROAD SAFETY POLICY

Overview

This policy governs the practices required by employees of AEC while driving on business for the AEC. The intent of this policy is to increase the safety of employees, contractors and other road users while driving.

This policy is mandatory and applies to all employees and contractors who are required to drive to carry out the work of AEC in any type of vehicle whether their own, rented or company vehicle. It also covers any period of time when driving for work associated with AEC.

Responsibilities of drivers when driving company's car for official work

All employees, while driving to carry out the work of AEC must:

- Have a valid driving license in the appropriate class for the motor vehicle being driven.
- Follow all rules of the road, as defined in the PDO SP 2000 (Road Safety) and by the Motor Vehicle Act.
- Before moving vehicle, ensure that all passengers in the vehicle wear seat belts.
- NOT operate a motor vehicle after consuming alcohol or other substances (including prescription and non-prescription medications).
- NOT use a cell phone or other portable electronic device while under control of the vehicle
- Report any motor vehicle related incident in which they were involved.

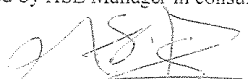

AEC commitment to its employees

- AEC will provide a copy of and promote the adoption of this policy to all its employees, contractors and will expect compliance at all times.
- AEC will not require its employees, contractors to drive under conditions which are considered unsafe and/or likely to create an unsafe environment, physical distress, fatigue, etc.
- All drivers will receive adequate defensive driving training.

Consequences for non compliance

AEC will enforce its Safe Driving Policy with a range of disciplinary measures up to and including termination of employment.

The final decision on the consequences for not complying with the Safe Driving Policy will be determined by HSE Manager in consultation with Contract Manager as appropriate.

Mohammad Said Al Bathari
Director, Alpha Engineering & Cont Co LLC.

EMERGENCY RESPONSE POLICY

1. Policy Statement

Alpha Engineering & Cont Co LLC is committed to

- Providing a safe and healthy environment for all employees, subcontractors and neighboring communities.
- Responding to the needs of the employees in case of any injury, illness whilst working at AEC site.
- Ensuring safe and appropriate administration of medication in accordance of with PDO specifications.

2. The response to any emergency shall focus on the following priorities:

- Saving life and avoiding injury to **PEOPLE (P)**
- Protecting the **ENVIRONMENT (E)**
- Limiting damage to **ASSETS (A)**
- Preserving **REPUTATION (R)**

And assist in the return to normal operations in the shortest possible time.

3. The Purpose of this Policy is to:

- Minimize loss through the implementation of an effective risk management recovery process.
- Effectively manage business resumption following unplanned disruption of activities.

Mohammad Said Al Bathari
Director, Alpha Engineering & Cont Co LLC.

DRUG AND ALCOHOL POLICY

It is the policy of Alpha Engineering & Cont CO LLC to protect Health, Safety and Welfare of its employees and all personnel affected by its operation. With respect to Alcohol and drugs, AEC will strive

It ensures to establish and maintain safe working conditions at all places of work. Unauthorized possession or consumption of alcohol, intoxicating drugs or substances at site is strictly prohibited in compliance with the laws and regulations of the Sultanate of Oman.

No employee shall be permitted to enter any site under the influence of alcohol or intoxicating drugs. Any employee believed to be under the influence of alcohol or intoxicating drugs / substances shall be refused admittance to, or, evicted from the site be liable for disciplinary action.

May be any employee consuming non-prescriptive medicine, which adversely affect the performance of work brought to the notice of the Site in-charge. Authorized liquor permit holders must show due diligence in strictly adhering to the rules regulations concerning the place, time and surrounding for consuming liquor. They shall be responsible for their personal conduct. Any misconduct shall be viewed very strictly with attendant disciplinary action.

Alcohol or drug testing and searches may be required when circumstances suggest the possibility and this will be done according to the agreed procedures and requires the written consent. When there is any damage to public property or personal injury or road traffic incident due to an employee using alcohol and drugs the case will be handed over to the responsibility of Royal Oman Police.

The effectiveness of this policy and its implementation shall be monitored.

Mohammad Said Al Bathari
Director, Alpha Engineering & Cont Co LLC.

SMOKING POLICY

Smoking is strictly prohibited within all company work areas, offices and public spaces including conference rooms, private offices, reception areas, restrooms, stairwells, hallways and work stations, as well as all other enclosed areas. This policy applies to all Visitors, Clients, Contractors and Employee of Alpha Engineering & Cont Co LLC.

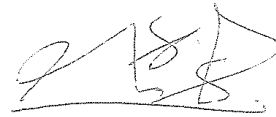

No additional breaks beyond those allowed under the Company's break policy may be taken for the purpose of using tobacco products.

COMPLAINT PROCEDURE

Persons observing a violation of this policy should bring it to the attention of their Supervisor. All complaints received will be investigated as confidentially as possible. All personnel are expected to cooperate fully with any such investigation.

CONSEQUENCE

Violations of this policy may result in disciplinary action up to and including Termination.
